

VENTURA[®]
— — — — —
ARCHITECTURAL LAMINATES

STYLISH COLLECTION

The term FLUTES typically refers to the grooves running vertically on a surface. Fluting was used in Greek and Roman architecture, particularly on columns.

Ventura brings the same concept and spatial effect to their range of Architectural Laminates in their latest range FLUTES.

These laminates come in a wide plethora of Wooden and Pastel shades with a subtle and modern fluted surface.

Now with New Super Matt (SM) finish too.

*Sheet Size : 8'x4'
Sheet Thickness : 1mm*
